

REMARKS

In response to the Decision of the Board of Patent Appeals and Interferences dated July 26, 2004, affirming the rejections of claims 1-61, those claims have been canceled. New claims 62-77 are being submitted to clarify the distinction between the present invention and the prior art of record. For instance, the claims recite an online help system in which information pertaining to the different help topics is stored in respective folders, and when a topic of interest is selected the files in the folder corresponding to that topic are examined to extract data associated with defined metatags. This data is then employed to dynamically generate a new file that defines a table of contents for the selected topic.

Favorable consideration of the new claims is respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
